WESLEYAN

The Beautiful . . .

A GLIMPSE of red brick walls above thick sweet-scented hedges—the swirling of autumn leaves and the crisping of late summer breezes—the sudden warmth of renewed friendships. Orange and black of Hallowe'en, the leer of jack-o'-lanterns, and the eerie sweep of witches casting their spell upon gay banqueteers.

Colored strips of crepe fluttering from the goal posts—team-mates breathing hard in the November wind—the shrill blast of the whistle proclaiming victory in the Thanksgiving Soccer games—yellow chrysanthemums—grey and white pilgrims in miniature—stern-faced Indians with peppermint feathers—the bounty of harvest heaped on the banquet tables—a momentary sadness as the seniors sing to Wesleyan.

Poppies by the thousands, syncopated rummage, the breathless suspense of Stunt Night . . .

Tall blue tapers—"Hark, the Herald Angels Sing," and girls in white—the spirit of Christmas. Lighted candles and carols on a frosty morning—the thrill of the holiday season.

The golf course a cascade of glimmering white, evergreens peeping from beneath their sparkling tinsel—the first snow of the year—incongruous snowmen, snowballs and toboggan slides . . .

Spring—Dormitory Day, climaxed by a brilliant horseshow, blue ribbons and sleek horses.

The library through the dogwoods—tall columns of the dining hall filtering moonlight. The dignity of black and white—seniors and Commencement—Wesleyan . . . The Beautiful.

who in 1840 received the first diplomas from Wesleyan College, we the graduates of 1940 respectfully dedicate this page. It is our sincere wish that graduates of future years will look back upon our class with as much pride as we feel when remembering those first eleven who laid the groundwork of our wonderful heritage.

In 1888, at an Alumnae Reunion, the first graduate, Catherine E. Brewer Benson, returned her diploma to her Alma Mater, saying, as she handed it to Dr. Haygood:

"When you left your Alma Mater, you little thought that your next diploma would be received by the hand of a woman. This is a progressive age and we know not what the future may develop. This is not a testimonial of scholarship, but a memento of the past. After forty-eight years it returns to its home asking love and protection."

THE ONE HUNDREDTH GRADUATING

Senior Class of

OFFICERS

LEE REES President ELEANOR MUSE Secretary
ELAINE PRIDGEN Vice-President LEOLA BURNETT Treasurer

ALL THE TYPE has been set and the presses are rolling. The Journal of the Class of '40 has been "put to bed." The banner head reads "Seniors Gain Diplomas," and the number one head says, "Hard Struggle for Four Years."

Glancing through the first edition, one may see in the section marked "first year" only very faint signs of the "debonairness" of the class of '40. There is a snapshot that shows a stern forbidding group and another somewhat meeker bunch in the background. The meek ones with their hair in pigtails are members of the ever ill-fated Freshman Class being duefully "ratted" by the sophs.

There is a writeup of the soccer season in this section telling of how the class of '40 went to the finals only to be defeated by the seniors. A feature gives a vivid account of the Thanksgiving banquet. Reading a little hidden meaning into the actual words one senses the impression made upon the freshmen by this, their first banquet at Wesleyan.

A small paragraph says the judges practically ignored the efforts of the first year class on Stunt Night when they came in fourth with their melodrama.

On the society page are accounts of a half dozen weddings in which many names from the Freshman Class are seen. In the Sophomore Section appears the first double head column with black letters announcing "Sophomores Win Trophy for Best Stunt." This year the class presented a machine with stunts to order. The Mrs. Bluebeard act and the ultra-modernistic dance helped the stunt reach and hold its place at the top of the column.

It is in this section that the words to the song "Sophomore Class of '40" first appear. In spite of these new words of encouragement there is a notice that the Sophomore Soccer team was stopped in the finals by the seniors, and that the swimming team placed second.

The sophomores won two other double column play-ups in this section. Headlines read "Sophs First in Basketball" and "Golf Trophy Goes to Sophs."

The Junior Section is one of features. The most prominent is one discussing "little sisters." The junior year was made a more outstanding one, reads the article, because of the appearance of the class that was to be the sister class of the girls of '40.

In the first column is a story that tells of the loss of the class sponsor and of how the class marched across the campus in a body and invaded the portals of the library to find another sponsor there.

THERE IS NO banner over this soccer story, although the juniors went to the finals only to be defeated by the sophomores. But a double-column head over the basketball story announces that the juniors won the championship.

And then it all leads to the Senior Section which is the most revealing section in the whole Journal. It is here that the seniors tell of their mixture of joy and regret at the thought of writing their last story. They win a double header on the front page as they, after three years of going to the finals, finally win the Soccer Championship and the cup.

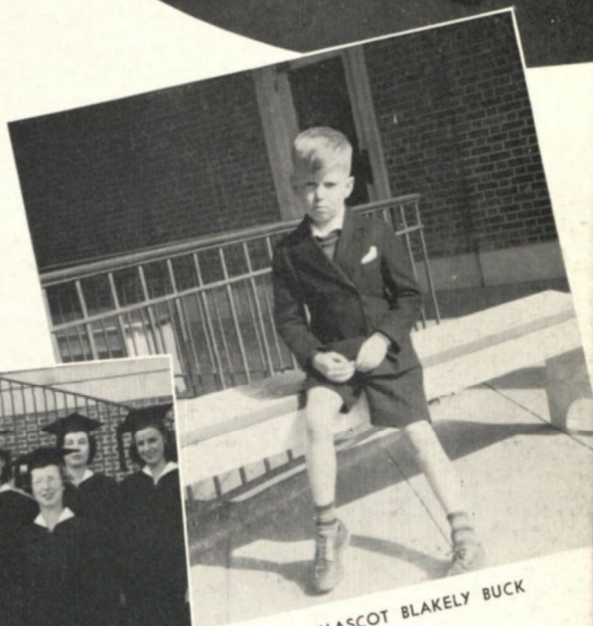

The story of the stunt says the seniors were awarded second place.

An unusual feature of this section is one in which the seniors express their attitudes and views along the lines of their four years at Wesleyan and what it means to be a senior and ready to graduate. There are statements referring to the Thanksgiving banquet and the peculiar feeling that this banquet was their last. Things to be remembered are: the songs of the carollers at Christmas time, the excitement of soccer and basketball, the constant rush to classes and labs, and trips to the pharm.

The Senior Class has won its final double-column head, has written its last box-feature. The presses are rolling off the memories that the class of 1940 will read in their Journal when they remember Wesleyan.

MARTHA SHAEFER

Macon, Georgia

A.B. CHEMISTRY, B.M. PIANO

WE WILL always remember Martha's unusual talent as a pianist. During her four years at Wesleyan she has given us all enjoyment with her musical ability. Without her help in the class stunts, the class of '40 couldn't have given successful performances. Besides being a member of the Glee Club for her four years at Wesleyan, Martha served as the club's accompanist her junior year. The Piano Club too claimed her a member each year. Martha's record gives us a glimpse of her varied interests and activities. She was a member of the Tennis Club in the junior year, and was selected as a charter member of the newly-organized club the senior year. Since her sophomore year, Martha has been an active member of the Crucible Club. Martha served on Activity Council her first two years, the French Club for three years and the Dramatic Club her sophomore and junior years.

The WESLEYAN GRADUATE of 1840

"A FEW DAYS before we graduated one of the class exclaimed, 'Girls, what do you think! Those Randolph Macon boys will be here and they will just criticize us till we'll be so scared we won't know a word.' True enough on the morning of July 17, as we walked onto the stage, directly in front of us sat with all respect to their honorable position, "Dave Captin," "Dot Lanier," "Fop Dowdell," "Pen Harrison," and "Jim Ford." But their august presence did not in the least intimidate us, for if they were college boys, we were college girls, the first in the world and as good as anybody." These were the words of Catherine Brewer Benson, the first Wesleyan graduate, as she described commencement day and college life one hundred years ago.

On January 9, 1839, ninety young ladies, after solemn prayer, primly wrote their names in the matriculation books of Wesleyan College. It was an excited group that gathered in the college chapel to witness the beginning of that shocking, yet thrilling, experience—education for women.

The college building was located on a commanding eminence midway between downtown Macon and the village of Vineville. The city spread out on a plain below. On the west were quiet homes and a majestic pine forest; on the north the ruins of old Fort Hawkins—blockhouses and relics of martial days. There were only fifty-six rooms in the cupola-crowned building—four young ladies to each room and furniture had to be furnished by the occupants.

HER COLLEGE DAY

The Wesleyanne of 1840 began her day at sunrise. The girls were summoned by a bell to meet in the chapel for family prayer—attendance compulsory. From then until breakfast they studied with time out for recreation until nine.

Next all pupils assembled for morning prayers and then to classrooms for recitations until eleven. At twelve o'clock boarding students retired to their rooms and day students were herded into the chapel for a silent study hour under the strict supervision

of a professor. From twelve until two came dinner and recreation, then study hour until four and recitations once more. At five—prayers and dismissal. Supper and recreation lasted until seven. Two hours of study remained and at nine o'clock—lights out.

HER STUDIES

Mathematics, English, history, religion, and science were the basic obstacles that the Wesleyanne of 1840 had to surmount. Catherine Benson relates an incident that occurred in a Math class one day. It had been raining and the members of the junior class, finding it monotonous in the study room, decided to adjourn to the room of one of the boarding students to study the lesson. "Upon entering the room we saw stems of half

a dozen clay pipes in warm ashes in the fireplace.

"What are they for?" we asked.

"We are going to curl our front hair." True to woman's nature, a desire for personal improvement, we decided to have our hair curled also. Time sped rapidly and ere we were aware, the bell summoned us to our recitation in Euclid. We marched into the recitation room feeling that to be seen was to be admired. A few questions were asked and finally—

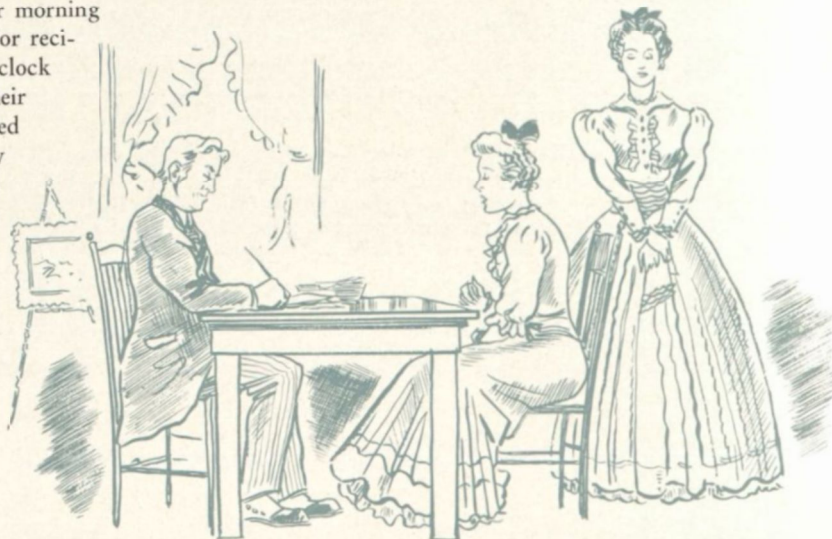

"Miss Martha, please take the Proposition 47"—a peep into the book revealed the figure, but alas! the demonstration was wanting.

"The next young lady will go to the board."

"Mr. Ellison, please excuse me. I am not prepared."

"The next."

"I don't know the lesson, Mr. Ellison."

This was too much for his patience. Quietly folding the book he said, his voice full of tenderness, "Young ladies, had you devoted the hour to study instead of making corkscrews you would have found it more profitable. Take the same lesson for tomorrow. Class dismissed."

HER PURSE STRINGS

The college suffered in reputation from the idea that the expenses exceeded those of every other "Female School." In actual figures the amount of money needed for a year's expenses was only one hundred and ninety dollars.

George Pierce in answer to the criticism of tuition said:

"A gentleman brings his daughter to the institution. He purchases for her room fine furniture, a high post bedstead, bureau of mahogany, a carpet at \$1.50 a yard. He goes down town and tells some merchants to give his daughter credit for anything she wants, for he desires that his darling shall be comfortable.

"When he goes home he slips a ten or twenty dollar bill in a letter every once in a while that his daughter may buy fruit, ice creams, candy and almonds. At the close of the term he adds it all together, throws in stage and tavern bills on the road coming and going, and when it's all figured out, he draws an asthmatic breath and exclaims,

"Good Heavens! What an extravagant place that Female College is!"

HER GRADUATION NIGHT

"It is the night of the 18th of July, 1840, a dark, starless night, ill fitted for the great event about to take place. The large college building with its broad verandas and tall white columns stands out imposingly against the dark background. Cheerful light gleams from its innumerable windows and within is a scene of confusion and excitement.

"As the hour approaches eight, the college bell begins to ring. Louder and louder it grows, seeming to redouble its energy with each pull of the cord, joyfully proclaiming an unusual event, important not only in the history of Macon, but in the history of every city, for tonight will appear the first graduates from the first Woman's college in the world.

"The room is bare of flowers. . . . The lights are from candles, but not too dim for one to discern the central figures in tonight's exercises . . . happy girls attired in white muslin dresses, unfrilled, unruffled, untrimmed, with hair parted and pushed gently back from the forehead and caught with a tucking comb, with faces glowing and eyes sparkling with suppressed excitement."

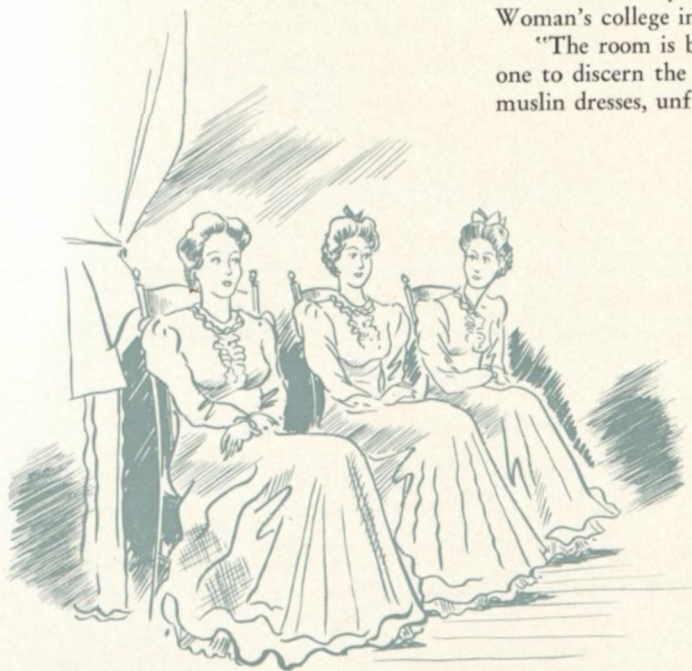

And at the close as George Foster Pierce handed out the last diploma he turned impressively toward the eleven young women on the stage and said:

"Identify yourselves with the refined, the cultured, the intellectual, the benevolent, and thus take the proud position to which your circumstances and claims entitle you. . . . The sphere of woman is constantly enlarging as education fits her for loftier duties and Christian philanthropy multiplies her means of doing good.

"A word that must be, and hath been;

A sound that makes us linger,

Yet farewell."

COLLEGE LIFE for us started on September 13, 1937, with the registering of a new Tri-K class who has proudly held high the red and white during the past three years.

From the first it was a venture so new that it was disappointing to have to replace bull sessions and midnight feasts for parallel, homesickness, and sophomores, who in the wee small hours before dawn chanted a funeral dirge through freshman hall and started such a rat day as Wesleyan has not had since.

But our meekness that first year gave way soon enough to win a real honor by the swimming championship, although our Mickey Mouse stunt only rated second place.

We had to prove to our big sisters what we could do before they left us, so, as sophomores we won the soccer championship, and then cheered them on to win the stunt over our third place "Holiday in Hades." We felt sorry for the faculty when the students won the Battle of Wits, so, sympathetically, the student body coached them so that they came out ahead in the second contest, making us proud of our proteges.

The new, strange feeling of having "little sisters" was good enough during our junior year to make up for the disappointment in losing the soccer championship and stunt night. We even realize now how very much we'll miss this year's soccer champs when they are gone.

We feel like the clock won't play fair and give us enough time to get everything in this year that we want to do. There is one added feature, a "reading day" to catch up on all continued articles in the magazines. But to pay for that day we have two exams a day instead of one.

This year we have seen our student activities building dedicated in memory of Olive Swann Porter. The three years since September 13, 1937, are filled with other memories—of carollers singing under

YEARS AT Wesleyan

candle-lit windows on early mornings as the Christmas holidays begin; of a campus covered with a five-inch blanket of soft snow and sleigh rides on kitchen trays with "Dr. Douglas" giving push-offs—many memories, but also there are new friendships that promise to be lasting.

New ideas and visions which promise widening horizons as well as our remembrances, making us realize that we have even more to look forward to than backward upon in our senior year to come. "Yesterday is today's memories, but tomorrow is today's dream."

WHEN we speak of spirits, we don't mean ammonia, nor do we allude to phantoms that some say haunt our dormitories in forms of men, all named Wilber; we mean the combined spirit, loyalty, and ability of some sixty girls—"The Spirit of '42."

Now we've had just a little time—not even two full college years—to really interpret to the world the meaning of the word, spirit; but give us another year or so, and there will be no doubt in anyone's mind as to its exact definition and practical application.

In the fall of '38, like so many busy bees, we buzzed from building to building and from room to room, often losing our way completely on Wesleyan's vast and awe-inspiring campus. Only when we were confined to campus dates did we realize the minuteness of its bounds.

The greatest distances on the campus seemed to be between the two goal posts on the soccer field. We never quite conquered that foe either, because the sophs trimmed us by one point on our first Thanksgiving Day game.

Stunts stunted us again, for "One-Lung-Gong" was not the apple of the judge's eyes, or else they sympathized with those antiquated seniors, for sure enough the "dignified ones" emerged victorious.

But we were not to be downed, or drowned either, by soccer games and stunt nights, for our aquatic version of "Ferdinand the Bullfrog" won us fame and fortune—well fame anyway—at the swimming meet. From that day forth the spirit of '42 has been a compelling force in all the activities of Wesleyan.

This year we simply were not able to conceal our inner delight over losing that very verdant tinge of our freshman year, and undergoing a gradual chameleon-like change into hues with only a hint of green in them. What a change it was to be asked about things instead of having to do all the asking ourselves.

A view of those orange tulips in the sophomore stunt

The '40 VETERROPT

SOPHOMORES...

Last fall we started with quite a bang, and nothing could keep us from reechoing that sound throughout the rest of the year. First of all we tried a new policy in the treatment of the freshman babies which worked quite successfully. For a change we treated them well—royally, I should say; and after a sumptuous banquet given in their honor, we assured each rat that we could actually be on friendly terms with her.

We were overwhelmingly defeated on Stunt Night. However, we banished from our thoughts those 2,560 tulips into which went our life blood, that irresistible windmill, and even those authentic Dutch costumes, and gave the babes credit for a grand performance.

On the soccer field the cry Orange Tulips, coupled with plenty of brain and brawn, carried us on to victory over some keen competition. We will have those freshmen to reckon with for many times to come.

With the other classes we were not so successful, but optimistic as we were, we announced basketball practice immediately after the last soccer game.

We have confidence, but not too much in our girls. We have a battle cry; we have an ideal sponsor; we have a grand group of girls; we have the spirit of '42.

"WELCOME TO WESLEYAN," the signs read, the faculty insisted, the upperclassmen shouted, as this year's model of Frieda Freshman entered the gates on September 13. Frieda muttered over and over to herself, "The thirteenth always was my unlucky day, but maybe I'll live . . . maybe." Her knees were playing "Home Sweet Home" when an upperclassman conducted her to her room in what was called "Dead End."

But in the midst of all the cootie parties, hill-billy parties, tea parties and just parties, Frieda found she didn't need her Mama as much as she once thought she was going to. Soon she discovered how many of her roommates' clothes she could get into, and then she turned her interest toward tests. Frieda wrote home, "College is not like I thought it would be. We just sit in a big room in the basement and answer questions about whether we like Mother better than Daddy."

The only thing Frieda feared about the whole school was the Sophomore Class. However, when "Rat Day" turned out to be feast and fun instead of toil and torture Frieda's sophomore dread slowly faded into a more healthy suspicion.

Frieda Freshman made her first triumph when she "tip-toed through the tulips" to proudly claim the Stunt Night cup with her stunt "So Red the O'Hara," a take-off on "Gone With the Wind."

By this time all eyes had turned to the Thanksgiving soccer games. After practicing till she was black and blue and yelling herself hoarse, Frieda discovered she was playing an unbeatable team. But as accidents will happen the sophomores won. It was lots of fun playing though, and just between Frieda and me and the goal posts, the freshmen discovered the sophomores weren't so bad after all.

The banquet at Thanksgiving was the most wonderful thing Frieda had ever experienced. The feeling she had as she tried to get the turkey up past her junior sister's flowers and down past the lump in her throat which rose every time she looked at the seniors in their evening dresses was one she had never before had.

The banquet put everyone in good spirits for an hilarious Professor Whiz program that night between the students and faculty. The frosh representatives did their best to help uphold the honorable record of the students. Imagine Frieda's surprise when the faculty won!

FRESHMEN...

The time flew so fast with the Hallowe'en banquet, the volleyball tournament, and a few lessons scattered here and there that Christmas was on Frieda before she knew it. . . . Christmas with jingle bells, the Christmas Banquet, the servants' party, and the early morning Christmas carols. All this plus the incidental added attraction of going home for the holidays made Frieda just about the happiest girl in the world.

Thus ends the chapter in the life of Frieda Freshman. Wait till you meet her next year as Sadie Sophomore. The best is yet to come!

—ANNE DEVEREAUX and JANE MARTIN.

A YEAR AT WE THE 1940

Editor Turner ponders over final layouts.

Business Manager Ponder finds the casual pose in order for the camera and incidentally the ad situation.

Assistant Business Manager Aiken, Assistant Editor Shelton, and Advertising Manager Comolli take time out for an official conference.

FROM the first major event fired in 1939 until the last minute deadline signed the Armistice in 1940 the VETERROPT army—10 strong has been stationed at photographic and literary fronts. And now that peace has been declared and outstanding events seized and held in captivity between these pages the captain and her men can look back upon the long and thrilling siege.

There were attempts at a new strategy—the abandonment of formal pictorial invasions and an effort made to catch the victim in action—surprise attacks.

There were harried moments when VETERROPT spies, incognito, gained admittance to enemy camps—gasps and shrieks as the flash bulbs went off—and another gay regiment was captured.

Drafts had to be sold to keep the army in ammunition—all prisoners photographed—leaders corralled and brought to account. There were sleepless nights trying to map out new courses. During the day every eye and ear was kept open for information some unsuspecting person should disclose.

SLEYAN... VETERROPT

Then there were charts drawn up, a calendar kept of important meetings, ways of attack planned and a VETERROPT man put on the job. After the major photographic embattlements careful records had to be made and sent to headquarters, corrected, returned—kept in secret vaults until one morning when the white flag of peace rose above the VETERROPT trench, and the year's work disclosed.

Now, it's over and the VETERROPT declares its truce—the terms—unconditional surrender.

To those few without whose help we would have been stranded long ago, we give the regimental decorations:

To Major George C. Collins, whose camera eye has been faithfully devoted to our cause throughout the year, whose time has been willingly placed at our disposal and whose untiring patience hasn't worn thin yet—we give the thanks and appreciation of the entire VETERROPT company.

To Miss Eunice Thompson and Dr. Gignilliat whose previous experience in annual strategy has made them invaluable to us.

To all the Faculty who have untiringly allowed us to capture their image for this book; and to every student encamped on this territory for their cooperation and help during the entire year we give distinguished recognition.

Conservatory Editor Price, Business Manager Brown and Snapshot Editor Ramsey talk it over.

Moyer goes into action as Pictorial Editor Richards, Literary Editor Jones, and sophomore recruits Kurtz and Woolbright tear themselves away from the matter at hand.

The NEW WESLEYAN

Editor Beth Belser looks thoughtful . . .
It must be time for the last edition.

THE 1939-40 WESLEYAN was designed for college girls, not for the college faculty. Believing that far too many student magazines are so literary that they go unread by the majority of the students, the staff set out to give the students of Wesleyan College a magazine that they would read and enjoy—a magazine that would appeal to every type of student. The editorial policy in rejuvenating the magazine was to make it attractive, lively, and above all readable.

The first change made in this rejuvenating process was in the makeup. A smaller magazine with greater bulk was introduced. The covers were linoleum block designs printed on bright colors. Illustrations for stories and articles, and editorial cartoons added much to the attractiveness of the magazine. The policy concerning the material used was "it is better to be less arty and highbrow and have a great many readers than to be ultra literary and have only a small number." The stories and articles appearing in the *Wesleyan* were slanted especially for this particular magazine and its student readers. The articles were practical, informal and en-

tertaining; the stories were gay, young, and modern. A unique feature of the editorial page was a column called *As Wesleyannes Say It* devoted to picturesque expressions, phrases, and descriptions. Also on these pages were cartoons, and a column of odd literary facts with a human interest angle. The *College Shopper*, an advertising feature made gift suggestions and told where to purchase the articles.

An attempt was made to encourage new writers. New members were appointed to the staff and all students interested in working on the magazine, either on the literary or business staffs, were given an opportunity to do so.

A Scribes' issue of the *Wesleyan*, devoted entirely to the most representative work of the club, replaced the traditional Scribes' page of poetry appearing in each issue. It was felt that this issue would give a better opportunity of expression to those Scribes whose literary ability was in a field other than poetry.

The staff is proud of the progress made in restyling this publication. It is proud of the support given it by Wesleyan students. Because of its many changes, because it is different in policy, makeup, and type of material included in it, the magazine deserves its title—*The New Wesleyan*.

THE STUDENT COUNCIL with the Wesleyan Y. W. C. A. held its biannual retreat at Joycliffe before the college opened in September. At this camp, for two days the groups made plans for Orientation Week, discussed campus problems and formulated definite objectives and aims for the whole year.

Members of the organization, identified by their white skirts and lavender jackets on the opening day of the college, welcomed the new-comers and helped them to become acquainted with Wesleyan. During

UDENTS, FOR THE STUDENTS!

Freshman Week the Council held its traditional "Cootie Party" in the gymnasium to honor the new girls.

Several formal receptions in our Grand Parlor were given by the organization during the year. In the early fall the student body attended a reception entertaining the faculty and the new students. Then, in the spring semester the newly elected Student Council was honored at a formal reception by the outgoing officers and representatives.

Delegates from the Council were sent to represent Wesleyan at the annual meeting of the Southern Intercollegiate Association of Student Government. The conference this year was held at Shorter College. There, many helpful suggestions and ideas for student self-government were obtained from the lectures and discussion groups. Also, in February, the student officers of the College Government Association met with representatives from other Georgia colleges and universities to form a new Georgia Federation of Student Government.

In order to emphasize the responsibility of individual students or members of their organization the Student Council held several regular meetings open to the entire student body. The Council also has placed a box in the College Government office for student suggestions and initiated a system of self-reporting in an attempt to improve our honor system.

Every Friday a student chapel is held presided over by the President of Student Government and the President of Y. W. C. A. Announcements and suggestions are read, plans made for the coming week and all student business discussed. This year student speakers and outside guests took part in the Friday chapel programs.

We feel that progress this year has been made in the creating of a more perfect understanding between the College Government Association and the entire student body. We believe that in trying to make the student body a cooperative unit we are serving the best interests of our college.

THE PLAN of Student Government is to awaken in the minds of students a knowledge and lively interest in the world into which she is to become a citizen. Its management encourages the student to be self-reliant and helps fit her for the part she is to take later in life, that of being a good citizen of a greater government.

The fundamental purpose of the council is the development of the student in the broadest sense. By expecting voluntary loyalty the government liberates the student from coerced discipline, which ultimately gives her a personal conviction of what is right.

We invaded a meeting to get this shot. Seated from left to right are: Lewis, Chapman, Baird, Parker, Ramsey, Fincher.

Where President Meets President

THIS YEAR'S Presidents Council started its various round of student activities with a "get acquainted" party for the new girls and freshmen. Pajamas and the dormitory parlor created an informal atmosphere that put the "rats" at ease.

As it is customary each year for the Presidents Council to entertain the new girls and the young men of Macon, in October an open house was held in the gymnasium. Vari-colored college pennants—colors of Wesleyan and Mercer carried out the theme for the occasion.

Later on in the fall semester the group with Dr. and Mrs. Anderson invited the Miller High School Seniors to be guests of the college for a Macon Dormitory Day. A definite program was planned for the morning and in the afternoon the "Freshmen for a Day" were entertained at the Anderson Cabin.

The Council is composed of the Presidents of the major campus organizations, the four class presidents, and the editors of the student publications. The activities include work on the social college calendar for the year, the revision of the point system and the presentation of nominations for all officers and representatives of the major organizations.

Nominations are made by Presidents Council and submitted to the student body for the final vote. With the annual staff the group of Presidents nominates outstanding seniors to be included in the feature section of the VETERROPT.

IDA STEPHENS
President

THE Y. W. C. A. has been a vital organization on the Wesleyan campus for forty-three years. It has sought to be a helping light to individuals to find themselves in this vast field of education and experience. It declares its purpose to be: "We unite in the desire to realize a full and creative life through a growing knowledge of God. We determine to have a part in making this life possible for all people. In this task we seek to understand Jesus and to follow Him."

The various departments of the "Y" strive to carry out this purpose. The Department of Social Activities enriches social living through informal parties and suppers, after-dinner coffees, Stunt Night, and the Christmas Banquet.

The Social Service Department offers an opportunity for serving others. It sponsors a Christmas tree for the servants, and "Santa Claus" for their children. The Hephzibah Home children are made happy by Hallowe'en parties, Christmas gifts, Easter-egg hunts, wiener roasts, and visits from the Wesleyan girls.

The Cabin.

A scene from the Christmas Banquet.

Mental development is stimulated by the World Friendship and Industrial Commission groups. Music and Worship offer a chance for meditation, enjoyment, and enrichment. A day with "Y" carries us from Morning Watch in the morning to Vespers and Taps when day is done. The Publicity Committee helps us become aware of events by bulletin boards, notices, and "Y" notes in the *Watchtower*. It spreads beauty by its various posters.

This year the Dramatic Department has cooperated with the Y. W. C. A. in putting on a Christmas and Easter pageant. It joined with the Physical Education Department in promoting "Charm Week." Several speakers gave elevating talks on this subject.

The Y. W. C. A. tries to give girls a broader scope of world events. This year the "Y" is attempting to develop a knowledge of current affairs by having informal discussion groups twice a month, and reviews of new books as cabinet studies.

Serving as links between "Y" Cabinet and the student body are Activity Council, Sophomore Council, Freshman Commission, and day student representatives. The chief aim is to make every student feel her vital connection with this organization and to grasp the opportunities that lie before her.

The following members of "Y" Cabinet are from left to right: Seated, Margaret Smith, World Friendship; Betsy Cook, Social Service; Anna Lou Carrington, Social Activities; Ruth Little, Freshman Adviser; Priscilla Lobeck, Publicity; Margaret Hunter, Music; standing, Catie Ridley, Town Representative; Ann McDonald, Cabin Manager; Martha White, President of Freshman Commission; Mary Frye, President of Sophomore Council; Emily McGee, Worship; Margaret Johnson, Industry.

Dramatics

ALFRED DORMAN
President

THE Thespian Dramatic Club is the only dramatic society on the campus and functions throughout the year with the dramatic department in presenting its major productions.

During the past year the club has sought to develop a new type of program which lends entertainment to both its members and the entire school.

"Come Let Us Adore Him," a Christmas pageant presented at Sunday Vespers before the holidays, was the first climax of the group's activities. In March the club presented an Easter pageant under the direction of senior speech students.

"Dear Octopus," a touching, thoroughly human domestic drama was the first production of the Wesleyan Dramatic department this season. It is the story of Dora and Charles on their Golden Wedding Anniversary and the return of their prodigal children.

TRA-LA-LA-MI-MI-MI—Monday night and the Glee Club is practicing again. They've been practicing for quite a while, in fact, since September, 1914, when the club was organized as the Wesleyan Choral Club. Professor Joseph Maerz was the first director of that club. The Wesleyan Choral Club gave its first performance before Christmas in the same year it was organized.

The Wesleyan Glee Club, as such, came into being in 1915, when Reginald Billing took charge of the club. Touring in all the southeastern states, the club became known as the foremost Glee Club of women's voices in the south.

"Hail, Wesleyan—" as the strains of the alma mater fade out into the night, we realize that the Wesleyan Glee Club tradition will live on under the direction of Miss Lucille Nelson.

Members are, on floor, Launius, Green, Taylor, J. McLean; seated, E. Chappell, Hunter, McGee, Schaefer, D. Rountree, Clarke, L. Williams, Baird, Jackson, S. L. Davis, N. The Vesper Choir

TWILIGHT—Sunday—a few moments of hushed silence—girls rising as the Vesper Choir files in for another Sunday Vesper Service. Music for Thanksgiving Morning Watch, for the Christmas Pageant, informal sings, folk songs and light-classic musical programs—these are some of the activities of the Vesper Choir. The group was organized in 1935 and is connected with the Y. W. C. A.

Not only has the Vesper Choir given musicales at school but it has also presented programs in the Sunday Schools, Churches, and Youth Conferences in Macon.

The most impressive activity of the choir is the early morning carolling on the morning before Christmas vacation. At five in the morning the Vesper Choir gathers together and underneath each candle-light window sings carols appropriate to the holiday season.

Debaters Council

RANKING among the most important organizations on the campus, the Debaters Council functions as an organization to promote interest in current affairs and the ability to discuss them intelligently.

The central topic for debate this year has been "Resolved, That the United States should follow a policy of strict economic and military isolation toward all nations engaged in armed international or civil conflict." A series of debates were run within the club to determine which members should represent the club in intercollegiate debates. This also gave every member a chance to obtain practical experience in debating.

The members are chosen from those students whose scholastic standing and general ability in public speaking are above average. This membership was limited to twenty-five.

ACTIVITY COUNCIL

ONE doesn't have to take the Y. W. C. A. apart to see what makes it tick—all that is necessary is to take a good look at Activity Council, the wheels of "Y." It is Activity Council, which together with "Y" plans the worship service, the socials, the sings, posters, taps, musicales, banquets and orphan parties.

Its special project this year was a charitable one—giving a new coat of paint to the "Y" room. Other things sponsored by it were a musicale, a swimming meet, the sale of fruits and the raising of money for the orphans' Thanksgiving.

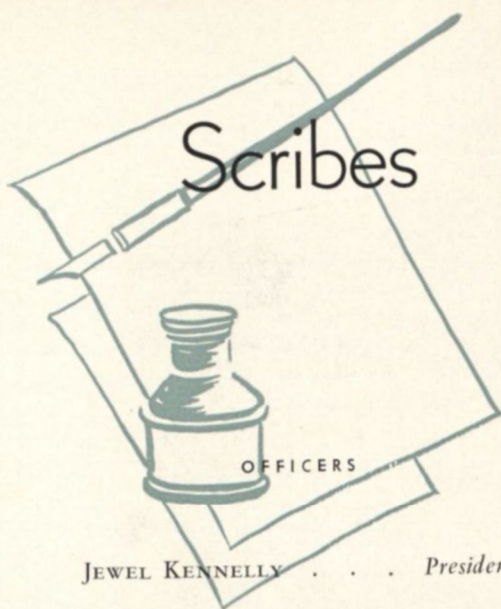

PIANO CLUB

WANTING to be musicians as well as pianists, we saw the need for broadening our cultural background, and organized the Piano Club to help us realize our ambitions. A program including aspects of theory, history, and artistic performances is being carried forward with the cooperation of outside speakers as well as the individual efforts of club members.

THE Scribes, an honorary literary society, was founded in 1920. Its members are chosen each year from students actively interested in creative writing. Though formerly interested solely in poetry writing, this year the Scribes widened their field to include all types of creative work.

With Miss Louise Rivers as first guest speaker, Scribes began this year a series of Sunday afternoon teas at which different members of the faculty and student body were asked to read. At another program Alfred Dorman read an impressive selection from the play *Cyrano de Bergerac*. The readings were both inspirational and interpretive.

Throughout the year members contributed poetry, short stories, and plays to the *Wesleyan Magazine*. The spring issue of the *Wesleyan* was written and planned entirely by the Scribes.

THE CRUCIBLE CLUB, founded on March 2, 1937, is composed of girls who have completed the general chemistry course and are particularly interested in science.

Each year the club presents the León P. Smith Award, a gold medallion, to the outstanding teacher of chemistry or geology in the southeastern states. This recognition is given to the man who has done the most for the furthering of science through his students. The first award was given to Dr. E. Emmett Reid of Johns Hopkins University on February 6, 1938. Dr. Samuel Guy of Emory University was the recipient of the 1939 award. The medallion was given to Dr. Reid for his work among graduate students and to Dr. Guy for his influence on the scientific education of undergraduates.

The Leon P. Smith Award is the only project of the Crucible Club. It is financed by a series of entertainments given by the club members. The Professor Whiz contest, a battle of wits between the faculty and students, is an annual affair given for this purpose. The award is given in memory of Dr. Leon P. Smith, Dean, teacher and friend of every Wesleyan girl.

"PARLEZ-VOUS FRANCAIS?" One must, you know, if she is a member of the French Club. There are no monosyllabic mumblings of "Oui" and "non," for all the meetings are conducted entirely in French. One must forget her Scotch and English ancestors and speak French as if she were the only American at a party in Paris.

Besides learning to speak French the members discuss French life in all its phases. Famous authors, composers, artists, peasant customs, life in Paris, French history, French folk literature, and French chateaux and cathedrals are among the subjects on the programs. Students prepare and give the programs and conduct the meetings.

The Cercle Francais is a decidedly active group—affiliated with the National Alliance Francais and has as its purpose the stimulation of interest in the French language, literature, and life by keeping it conversationally alive among its members.

THE HOME ECONOMICS CLUB functions for the promotion of greater interest in that field. The Wesleyan club is affiliated with state and national home economics groups, thereby keeping in touch with the other college clubs and what they are doing. In March, 1940, the Wesleyan club was hostess to the College Home Economics clubs of Georgia at their annual meeting held in Macon, in conjunction with the meeting of the Georgia Home Economics Association and the Georgia Educational Association. The Wesleyan club has sent representatives to the district, state and national home economics meetings.

A MOUNTAINEER TWANG, child brides and jew's harps are usually associated with Tennesseans. None of the members of the Tennessee Club have these attributes yet they are real Tennesseans (their sojourn in Georgia being only a temporary state of mind). As one might say in native dialect, "they have a shoutin' good time at all their get-togethers."

Dr. and Mrs. S. L. Akers, natives of the state themselves, have been sponsors of the club since its founding in 1937. Each year they entertain members at an enjoyable "Shindig" at their home. And if we can believe all we hear when "Tennessee meets Tennessee" there is never a dull moment.

We are the Girls from Old Florida

"F-L-O-R-I-D-A-" is the theme song of the Florida Club, lustily sung as its members, thirty-five strong, gather together in any old weather to reminisce, probably over sunshine and palm trees. To them the main event of the year was the January snow storm.

LAST YEAR the Macon girls felt a need for a more complete organization in order to become more active in campus activities and to become better acquainted with each other. As a result the day students club was formed, holding its regular meetings twice each month in the Town Girls room of the gymnasium. During the meetings problems peculiar to Town Girls are discussed and informal get-togethers are planned.

This year the Macon girls took an active part in aiding Presidents Council with the Macon Dormitory Day that was instituted this year. At this time Miller High School seniors were freshmen for a day and members of the Town Girls Club served as guides and hostesses for the occasion.

THE SADDLE AND BRIDLE CLUB was organized in the fall of 1938 for the purpose of fostering riding and horsemanship on the campus. A group of the older and more experienced riders, seeing the need for such a club, met and organized. Later, tryouts were held and new members admitted. Membership was not restricted to the riding classes, but all students interested in equitation were eligible to tryout. The judging was based on seat, hands and control of mount.

During the first year of its existence the club's chief project was the sponsorship of the annual spring horseshow on Dormitory Day. The club did much to improve the show by taking care of details such as ribbons, programs, ushers and the like. Club members served as marshals and made the awards. The second year the club was instrumental in arranging a small horseshow during the first semester as well as the spring show. At this time club members put on an exhibition and a number of competitive contests.

A BRAND new club that opened its eyes on the year 1940 with greatest anticipation!

Students interested in gaining a broader knowledge of psychology and alert to this intensely psychology-conscious world that we live in formed the Cyclothymic Club. We chose the name Cyclothymic because it means a progressive, enthusiastic and well-balanced individual—an extrovert—and this is the aim of each club member.

During this past year we have been busy getting organized. Our program for 1940-44 is to raise money to offer a scholarship to the outstanding southeastern student of psychology for the purpose of continuing his study.

Some of the activities that we have sponsored are: the sale of personality, vocational, and I. Q. tests, to the students, and a field trip to the Milledgeville mental hospital to study the main classes of disorders at first hand by the Abnormal Psychology students.

We are proud to have as our sponsor Dr. Raleigh Drake, who is invaluable to us because of his unflagging interest and inspiration.

Membership in the club is based on interest in the subject and an average of B in General Psychology.

ATHLETIC ASSOCIATION

For WESLEYAN

FROM THE faltering entrance of the first freshman in the fall to the unwilling exit of the last senior in the spring the athletic calendar is crowded with one event after another. Trucks filled with hay, girls dressed in jodphurs and slacks, a moonlight night, campfires, and hot dogs—the freshman's first impression of the Wesleyan Athletic Association. This same idea of jollity and enthusiasm prevails throughout the year.

Every Wesleyan girl automatically becomes a member of the Athletic Association, but there must be a representative group elected to Athletic Board. What goes on behind the closed doors of those meetings every Thursday night? The Board members are working out a well-rounded program for the greatest benefit of each student. This program must promote interest in physical development, encourage true sportsmanship, and provide for fun and frolic.

The excitement prevalent at the first soccer games on Thanksgiving Day is characteristic of the entire season, which starts early in the fall. Decorated goal posts, sponsors, yellow chrysanthemums, cheering crowds, the thrill of the first kick-off, horns blowing! Class spirit is always exhibited but above all fair play.

Basketball follows close upon the retreating heels of soccer. The gymnasium flooded with lights is the scene of excited grandstanders, swishing balls, and shrill blasts of the whistle. As basketball subsides into the background, the swimming meet claims the attention. The meet features efficient strokes and smooth diving, as well as original water stunts.

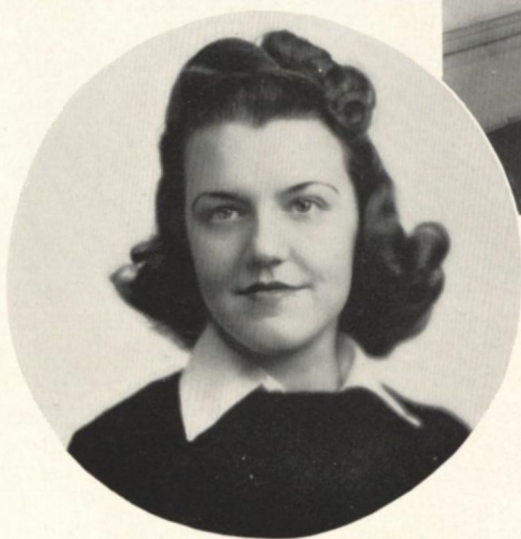

Although tennis and golf are in season the entire year, the tournaments are held in the spring. Other sports sponsored during the year are: hiking, badminton, bicycling, ping-pong, hockey, baseball, and horseback riding. One of the chief events of the year is the horseshow, with sleek horses, gayly attired riders, ringmaster, and blue ribbons.

The sports carnival in honor of the whole student body is an innovation of the year 1939-40, featuring music, floor-show, and various side attractions. Among other new plans is Health Week, with emphasis on correct posture and climaxed with the selection of "Miss Health."

A MAJOR campus organization! Membership—every student—the Conservatory Athletic Association!

The Athletic Board, patterned along lines of the College Organization, is composed of a representative group selected by the students. Throughout the years that we have had an Athletic Board such activities as tennis, horseback riding, ping-pong, bicycling, baseball, hockey, and badminton have been stressed. This year creative dancing has been a major interest of the Athletic Association.

The Athletic Association sponsors entertainments of different sorts such as banquets, hay rides, wiener roasts, and cabarets.

The Association is primarily an auxiliary to the Department of Physical Education, but its program is one that lays emphasis on something bigger than mere athletic prowess—emphasis on fine standards of behavior, fairness in decisions and the beauty of fair play.

THESE ARE the athletes on the campus. To win a "W," a girl must earn 500 points by participating in soccer, basketball, swimming, tennis, golf, and horseback riding. The better her team does in inter-class competition, the more points she receives. The points must be earned in one year, and each succeeding year that a girl earns 500 points, she receives a star.

TENNIS CLUB

LOVE GAME—congratulations—those energetic creatures always seen stroking the ball around on the tennis courts are more than likely members of the Tennis Club. Killing two birds with one stone, they work off excess energy and play off the number of hours the club requires of its members.

The proud young souls displaying their W's are the six best tennis players on the campus. They won these places by competition from the twenty-four members of the club.

The SOCCER SEASON

A CRISP, windy Thanksgiving Day—words that are synonymous with soccer at Wesleyan. The 1939 soccer season opened with the annual freshman-sophomore and junior-senior games on Thursday, November 23. The sophomores eked out a 2-0 victory after a fast and exciting game, while the seniors came through with flying colors defeating the juniors.

THE FIRST of the two games was between the freshmen and sophomores. The strong sophomore backfield repelled the fleet oncoming freshman forward line time and again and backed its own forward line in a rush to the offensive goal. Sophomore Captain Jane Gary kicked the deciding two points.

The senior-junior game brought together old foes. The Graham-Hall combination played a losing game well. Goal-keeper Helen White kept her team from defeat when the seniors were deep in junior territory. Turner and Stanton played a splendid offensive game. The seniors played with exceptionally forward cooperation and accuracy.

The first of the play-off games was successful for the seniors and the juniors. The seniors retaliated to beat the freshmen and the juniors defeated the sophomores 2-0, winning on a last-minute field goal. After being defeated for the second time, the freshman team dropped from the tournament. The sophomores were eliminated in the semi-final game by the seniors.

The ball's in dangerous territory . . . You'd better watch out, Scotty.

Jane, it's no fun to tangle with Fran . . . pass that ball quick!

Soccer

The senior eleven met the juniors for the second time in the final game. The green and gold team never faltered in spirit and enthusiasm and after a hard-fought game the crimson shade bit the dust and the seniors won the 1939 Soccer Championship.

The seniors have gone to the final games for three years but not until this last time were their green and gold colors placed on the soccer cup in the trophy room.

Very few girls had played soccer before they came to Wesleyan, but under the tutelage of Miss Cartledge and Miss DuPuis the freshmen soon came to love the game and to develop skill in passing and dribbling. In practice the freshmen and juniors vie with one another and the sophomores and seniors team together.

Teams are chosen about three weeks before the tournament and it is then that intensive practice begins, culminating in the Thanksgiving Day games.

The game is in your hands, Rita.

COME FEBRUARY and Wesleyan takes to the hardwood with Basketball. From the starting whistle to the last two points in the game both forwards and guards were on their toes. Accuracy and quick cooperation lent to the season an intense excitement, while it never lacked for excellent play and good sportsmanship. The series of games ended with the Senior Class of '40 winning a second championship of the year.

On February 25, the freshmen met the sophomores and juniors played seniors. The sister classes, sophomores and seniors, were victorious. In the second round the winners played the winners and the losers the losers. The seniors again won, defeating the sophomores 40-31. The juniors eliminated the freshmen 33-26.

BASKETBALL

Right: Frankie tries for the basket.
 Circle: Keep watching that ball, Juniors.

Sophomores and juniors played in the semi-final game. Only a last-quarter rally by the sophomore forwards saved them from defeat. The lavender and white team by a score of 30-27 won their right to contest the senior team for the second time in the finals.

In this last game of the season the senior forwards were "on" and the sophomore guards were hard-pushed to feed the ball to their own forwards who handled it equally as well as their opponents. The final whistle sounded—the score—seniors, 38; sophomores, 35.

The swimming meet, held annually in April, creates great interest on the campus. The classes compete in diving, swimming for form and for speed, and also in an original stunt. Active participation in red cross and life saving has stimulated swimming activity.

Extra-curricular classes are taught by those students who excel in swimming and diving.

NOVEMBER—Wow! Everything vies for honors this month. Traditionally it's the month of Thanksgiving and soccer so that's as good a place as any to begin. . . . Soccer thrills and spills were closely rivalled by the A. A. Board "fun night" at the gym. . . . Everything from circus freaks, through turtle races, even down to Bingo and candied apples took the spotlight. . . . Stunt night went haywire and the frosh ran away with the prize, with their "take 'em off" on "Gone With the Wind." . . . So Red the O'Hara. . . . The juniors came through with syncopated rummage, and the lofty seniors gained second recognition with their Temple of Learning. . . . The sophs wailed over Orange Tulips. . . . 10,000 of them until Christmas. . . .

DECEMBER—Another gala thirty-one days! Miss Carnes started the ball rolling with her annual Christmas party in the library. That singing Christmas tree still has us guessing. . . . Y. W. C. A. kept up the good work with a Christmas banquet . . . all white . . . and Dramatic Club capped the climax with the Christmas pageant. . . .

Ida and Annie Laurie look over the latest novel at the Library party. . . .

Jean and Eleanor pay attention, but John can't forget his public. . . .

JANUARY—Exams (the revealing things) took the spotlight away from society this month and we all dated anyone from Keats to Napoleon. . . . Those of us who survived won't soon forget the impressive ceremony in the Student Activities Building when it was dedicated to the memory of Mrs. Olive Swann Porter, wife of our great benefactor. . . . Wesleyan turned co-ed overnight when the Georgia Young People's conference came to town . . . a male recruit . . . 50 strong . . . took us by storm. . . . Emory University

ATLANTA, GEORGIA

FOUNDED IN 1836 as a liberal arts college, moved to a new and modern plant following its enlargement into a University in 1915, Emory combines the best of the old in higher education with the best of the new. From the beginning this institution has striven for quality rather than quantity in its student body. The University today, consequently, is small enough for friendly, inspiring relations between students and faculty, yet large enough for the broadening, cultural influence that comes from contact with men in many fields of learning.

Emory's 235-acre campus of rolling woodland is located in the beautiful Druid Hills section of Atlanta, six miles from the heart of the city. There are eighteen buildings of Georgia marble and concrete, constructed along distinctive lines of architecture and providing the most up-to-date facilities for study and student life.

The University operates on the four-quarter basis. By attending school in the Summer Quarter, which carries the same credit as each of the three quarters in the regular scholastic year, student may finish his college course in three years.

Emory is fully approved by the Associations of American Universities, the highest of all the accrediting agencies, and each of its professional schools holds an "A" rating in its respective field.

The Emory Junior Colleges at Oxford and Valdosta, Georgia, are integral parts of the University System.

MACON, GEORGIA

There Is Something Distinctive About Wesleyan

IT OCCUPIES one of the most modern and splendidly equipped plants in America.

The buildings are fireproof. No dormitories more than three stories in height; each dormitory room has running water.

Every provision is made for health and physical development. Sports include golf, tennis, basketball, swimming, riding and soccer.

The high quality of its work is recognized by the highest standardizing agencies in America.

The social, moral and religious atmosphere is unexcelled anywhere.

Best advantages are offered by the WESLEYAN CONSERVATORY OF MUSIC AND FINE ARTS.

Rich in traditions of the past—alive to the needs of the future. We would like for you to know all about Wesleyan.
